### COMMENTS

Four of the eight companies responded did not met some of the requirements, however four of them comply with the minimum requirements. Evaluation committee noticed that some of the bidders attached current cr6 certificates which indicates list of directors and secretaries which have the same information as that in cr14 and cr5 which have same information as in cr6. The committee further agreed to seek clarity from the procurement expects, it was clarified that the is no law at the moment which force companies to abide with new company's act so those documents worked the same. Therefore, the committee agreed to accept both documents as long the information required is there.
